Cloud Storage & File Sharing

Keep documents organised and easy to access.

Why have us do it

- Find important files without hunting through devices.
- Share selected documents without emailing attachments.
- Synchronised folders can simplify everyday work.
- We help you understand access permissions.

How we'll do it

1. We discuss Google Drive, OneDrive or Nextcloud.
2. We create a practical folder structure.
3. We configure syncing and basic sharing settings.
4. We demonstrate sharing and safe file organisation.

What we need from you

- Access to the relevant devices and accounts.
- The folders you want to organise.
- A cloud subscription if extra storage is needed.
- Approval of which files can be shared.

That's it: you tell us what you need, we set it up and check it.
