Smart Home Setup & Automation

Connected living, made simple.

Why have us do it

- Save time connecting your smart devices and apps.
- Make compatible lights, plugs and sensors work together.
- Create useful routines without unnecessary complexity.
- Understand privacy settings and how to control your setup.

How we'll do it

1. We review your goals, devices and home Wi-Fi network.
2. We help connect compatible lights, plugs, cameras and sensors.
3. We configure useful scenes, routines and voice controls.
4. We test the setup and show you how to use it.

What we need from you

- Your smart devices and access to their control apps.
- Your home Wi-Fi details and relevant account logins.
- A description of what you want your smart home to do.

That's it: you choose what you want, we help set it up and check it.
