
Cloud Storage & File Sharing

Keep documents organised and easy to access.

Why have us do it

- Stop hunting for files across devices.
- Share selected files more conveniently.
- Use folders and permissions deliberately.
- Understand how syncing works.

How we'll do it

1. We choose a suitable cloud storage provider.
2. We plan a practical folder structure.
3. We configure syncing and access.
4. We show you how to share files.

What we need from you

- Access to relevant accounts and devices.
- Files you want to organise.
- Any needed provider subscriptions.
- Approval of sharing permissions.

That's it: you tell us what you need, we set it up and check it.
