Small Business Digital Setup

Get your business online with the essentials connected.

Why have us do it

- A consistent online presence helps customers find you.
- Website, email and listings should work together.
- Getting accounts set up correctly saves frustration.
- A simple handover makes future updates easier.

How we'll do it

1. We discuss your business and online priorities.
2. We plan the essential website, email and listings.
3. We set up the agreed accounts and business details.
4. We test links and explain how to manage everything.

What we need from you

- Your business name, logo and contact details.
- Access to existing business accounts, if any.
- Your preferred domain and hosting arrangements.
- Approval of any subscriptions or external costs.

That's it: a connected, practical digital starting point.
